

# Distribution Technology

a 2 TCH Webinar

**Date:** Thursday September 24, 2020

**Platform:** Zoom Meeting Webinar

**Time:** 9:30am – 11:45am (*Please log in before 9:25am*)

**Credit:** 2 TCH's will be awarded to those who attend 100% of the course.  
NH DES water credit approved.

**Cost:** **\$28 members / \$36 non-members**

**Instructors:** Nick Bates (EJP) and Dan Burdin (EJP)

## Agenda:

This presentation will cover a variety of topics to help a utility gather data and visibility in the water distribution system with a variety of technologies. Throughout the training, there will be a discussion on how this technology can not only provide more data from the field, but it will provide solutions to help everyone stay safe during the day to day tasks.

Topics Include:

- Geographic Information System (GIS) – We will cover GIS for beginners and offer information on best practices to help start and grow a GIS map.
- Remote Monitoring – A review of what remote monitoring technology is, and the different applications. This technology is designed to help a utility gain visibility in remote locations for pressure spikes, and other common issues. Remote monitoring also provides data to help reduce non-revenue water.
- Leak Detection – A survey of best practices for leak detection and some discussion of new technology for the industry.
- Meter Technology Advancements – We will take a quick look at new technologies in the meter industry including improved accuracy of meters, advanced meter reading, and alarms and warnings available through the meters and radios

**To Register:** Please visit our website [GraniteStateWater.org](http://GraniteStateWater.org) and click on the training page under the service tab. **Please sign-up before 10:00am one day prior to class.** Attendees will receive an email with a link to the meeting one day prior to the class.

**IMPORTANT** – Do not mail in registration. Please email [Heidi@granitestatewater.org](mailto:Heidi@granitestatewater.org) if you need help with signing up.

**For Further Assistance:** Please email [info@granitestatewater.org](mailto:info@granitestatewater.org) or call 603-756-3670.

**ALL ATTENDEES MUST SIGN UP PRIOR TO JOINING THE WEBINAR.**
