

# Lead & Copper New Regulations & Control

a 2 TCH Webinar

**Date:** Tuesday, November 17, 2020

**Platform:** Zoom Meeting Webinar

**Time:** 9:30am – 11:45am (*Please log in before 9:25am*)

**Credit:** 2 TCH's will be awarded to those who attend 100% of the course.  
NH DES water and wastewater credit approved.

**Cost:** **\$28 members / \$36 non-members**

**Instructors:** Cynthia Klevens (NHDES) and Steve Guercia (Secondwind Water)

## Agenda:

The federal Lead and Copper Rule Long Term Revisions are here! This training will review the new requirements being put into law right now. State implementation schedules will be shared so that you can plan accordingly to keep your water system in compliance. Rule revisions include lead service line inventories for all non-transient systems, earlier public notification requirements for Lead Exceedances, and a lower 'trigger level' for corrosion control treatment evaluations.

We know that drinking water fixtures marketed through January 2014 contained up to 8% lead content which readily leaches into our drinking water when water quality is aggressive and sits stagnant in premise plumbing. This course will review water characteristics which contribute to water corrosivity, what the typical corrosion control treatments are, when you might choose not to treat the corrosion and instead remove the lead from the water, and the application issues in the field for sizing, installing, and maintaining these systems.

\*\*\*Operators are encouraged to come to this seminar with their test results so we can discuss some real life examples.

**To Register:** Please visit our website [GraniteStateWater.org](http://GraniteStateWater.org) and click on the training page under the service tab. **Please sign-up before 10:00am one day prior to class.** Attendees will receive an email with a link to the meeting one day prior to the class.

**IMPORTANT** – Do not mail in registration. Please email [Heidi@granitestatewater.org](mailto:Heidi@granitestatewater.org) if you need help with signing up.

**For Further Assistance:** Please email [info@granitestatewater.org](mailto:info@granitestatewater.org) or call 603-756-3670.

ALL ATTENDEES MUST SIGN UP PRIOR TO JOINING THE WEBINAR.
