

Temporary Power: Docking Stations & Sizing Generators

Date: Tuesday, November 10, 2020

Platform: Zoom Meeting Webinar

Time: 9:30am – 11:45am (*Please log in before 9:25am*)

Credit: 2 TCH's will be awarded to those who attend 100% of the course.
NH DES water and wastewater credit approved.

Cost: **\$28 members / \$36 non-members**

Instructors: Michelle Hilger (Powers Generators)

Course Description:

No generator at your facility? No Problem! This course will explore the benefits and best practices of using rental and temporary power. We will review what a rental generator is, how you size a rental unit (particularly with the changes to today's Tier 4F engine tolerances) and what accessories to consider to support your temporary power plan such as docking stations and the importance of having a quick connect power options. Lastly, a brief introduction will be made on a newer rental solution: hybrid rental systems with battery storage technology.

To Register: Please visit our website GraniteStateWater.org and click on the training page under the service tab. **Please sign-up before 10:00am one day prior to class.** Attendees will receive an email with a link to the meeting one day prior to the class.

IMPORTANT – Do not mail in registration. Please email Heidi@granitestatewater.org if you need help with signing up.

For Further Assistance: Please email info@granitestatewater.org or call 603-756-3670.

ALL ATTENDEES MUST SIGN UP PRIOR TO JOINING THE WEBINAR.
